Profile

Junior student majoring in Information Engineering at Shanghai University. Interested in software development, machine learning practice, embedded systems, and engineering-oriented problem solving. Familiar with programming, Git-based collaboration, GitHub Actions, and LaTeX document building.

Education

- 2023 – **B.Eng. in Information Engineering**, *Shanghai University*, Shanghai, China
- Present Junior student. Relevant coursework includes Embedded System Design, Data Structures, and Computer Networks.
- 2020 – 2023 **High School**, *High School in Henan Province*, Henan, China
- 2017 – 2020 **Junior High School**, *Junior High School in Henan Province*, Henan, China
- 2011 – 2017 **Primary School**, *Primary School in Henan Province*, Henan, China

Project Experience

- 2026 **Machine Learning CI/CD Practice**, *Course Project*, GitHub Actions
 - Built a small machine learning workflow using Git and GitHub.
 - Configured GitHub Actions to run a training script after repository updates.
 - Generated a model output file and published it through an automated release workflow.
 - Practiced version control, branch management, release management, and basic CI/CD concepts.

Technical Skills

- Programming Python, C++
- Tools Git, GitHub, GitHub Actions, VS Code, LaTeX
- Engineering Basic data structures, computer networks, embedded system design, machine learning workflow practice

Relevant Coursework

- Courses Embedded System Design, Data Structures, Computer Networks

Languages

- Chinese Fluent
- English Technical reading and coursework communication
